

BioNova Soilmix 50ltr

Bio Soilmix is an excellent pre-fertilized organic potting soil, containing only vegan ingredients. This substrate consists of grinded and sieved garden compost, black peat, white peat and a vegan fertilizer with specific additives. This mix is delivered in recyclable plastic bags of 50 liters and is ready-to-use. The included fertilizer suffices for the first 1-2 weeks, depending on the plant and pot size. Thereafter a liquid fertilizer is necessary, Bionova Soil Supermix is recommended! This mix is of a sublime quality and keeps its quality and airiness for a long period. This Bio Soilmix is free of chemicals and animal waste.

It is important to note is that our Bio Soilmix as well as our Cocomix Plus are both RHP trademarked! This guarantees that the quality that you have come to expect from Bionova is ensured. Look for the RHP logo to be sure you are working with quality substrates.
